Get in front of high-intent buyers, not buried on search engines

Sourceworks is where buyers of metals, materials, fasteners and services find sources, send RFQs, and save sources for later outreach. **Listing is free.**

WHY LIST

Found by the right buyers

Buyers filter by material, shape, grade and service — the same lists you build your listing from — so the people who find you are already looking for what you stock or do.

RFQs, not leads

Buyers send real requests — material, quantity, and criteria — straight to the contacts you choose. No bidding platform, no middleman, no cut of the order. You quote and close directly.

You maintain the listing

Keep your offering, location and RFQ contacts current at no cost. Listings never come down for non-payment. Already listed? Claim it free and take it over.

HOW IT WORKS

STEP 01

Create a seller account at sourceworks.us/sell — email and password, no credit card.

STEP 02

Build your listing from the same materials, shapes, grades and services buyers search with, and enter the email that should receive RFQs.

STEP 03

We review it — an industry expert at Sourceworks checks every listing before it goes live, usually within two business days.

STEP 04

Get discovered. Buyers find you in search and send RFQs directly to your listed contacts. You reply from your own inbox.

FREE LISTING VS. SUPER SOURCE

	FREE LISTING	SUPER SOURCE
Price	**$0** — no card needed	$49 / month per listing, or **$490 / year** (two months free)
Create or claim a listing	✓	✓
Full offering, location and contacts	✓	✓
Visible in buyer search	✓	✓ with a **Super Source badge**
RFQs delivered to your chosen contacts	✓	✓
Edit your listing	Changes go live after a quick review	**Instant publishing** — no review wait
Additional listings for branches and divisions	—	✓
Listing activity reports	—	✓ coming soon

Every company's first listing is free; extra listings require Super Source. Turn Super Source on from your seller account whenever you want it. If Super Source lapses, nothing comes down — the badge is removed and additional listings are maintained by Sourceworks until it resumes. Something not on our lists? Add it and we'll review it for addition or matching.
